

Parent/Guardian Expectations for Google Meet Behavior

To maintain a positive, productive learning environment and assure confidentiality for students and teachers during distance learning, all parents/guardians are asked to observe the following privacy guidelines:

- Google Meetings are designed for students to seamlessly transition to remote learning. To prevent disruptions to the learning environment, parents/guardians should not actively participate in sessions, although parents/guardians may assist their child with technology. Especially with synchronous learning, any support needed should be coming from the teacher at the moment.
- Do not video record, audio record, photograph, live stream, or transmit in any other way any part of a Google Meeting, including not posting on any social media platform.
- Any confidential or personally identifiable information related to students participating in a Google Meeting should not be collected, discussed, or shared.
- Parents/guardians should not engage with students or teachers during Google Meetings.
- Please contact your child's guidance counselor if there is an issue preventing your child from attending a Google Meet or completing work.
- If a parent/guardian has a question, please email your child's teacher.
