Classroom Presentation

- Every Wednesday we taught different topics to the Freshman Seminar/ Financial Literacy class virtually and in person.
- The topic that resonated with the students was investing into cryptocurrency.

VINCENT SAYS:

“Walter” says:

- “I enjoyed learning about investing and cryptocurrency because it's a great way to potentially get wealthy in the future. A couple things that I learned was that when you buy stocks of a company you now own a percentage of that specific company. Another thing that I learned was that crypto is a digital asset designed to work as a medium of exchange.”

Thank You!
